

# The Washoe County School District is building a new Vaughn Middle School!

This summer, we began the construction project to rebuild Vaughn Middle School. After the school year finished in June, we started building a brand-new school on the fields at Vaughn Middle School.

Students, staff members, and families will get to watch the new school as it's being built for about two years as we are planning to open the new school building in August 2026. After that, the old school building will be demolished, and new athletic fields will be put in. The whole project will be complete in 2027.

Your safety is our top priority. As we embark on this construction journey, we will ensure the site is fenced and that walking routes are altered for your protection. Please refer to the map for the designated safe areas to walk and cross streets. For your convenience, the main entrance will remain on Bresson Avenue.

For updates and more information, visit the New Schools and Expansions webpage for Vaughn Middle School at: [www.washoeschools.net/vaughnrebuild](http://www.washoeschools.net/vaughnrebuild).

If you have any questions about this project or the safety measures, please contact us at [Building@washoeschools.net](mailto:Building@washoeschools.net)
