Galena High School Internship Program

Galena High School is now offering internship opportunities for the upcoming school year. Students are encouraged to connect with a business professional who is willing to serve as a mentor and internship supervisor.

With a few signed forms, students can count the internship as one of their seven class periods at Galena. This is an excellent opportunity for students to gain hands-on experience and explore potential career paths in a field of interest.

For more information, please contact Clara Mitchell at cemitchell@washoeschools.net

Do you or your business need an intern?

With new internship opportunities now available through the school district, this is a great chance for you or your company to mentor and support local high school students while helping them gain real-world experience.

At Galena High School, we are especially looking to place students in internships related to our Career and Technical Education (CTE) programs, including Metals, Culinary, and Engineering Pathways. These students typically have several years of hands-on experience in their field of study and are eager to apply their skills in a professional setting.

We welcome opportunities across all industries—whether your business is in cosmetology, accounting, architecture, healthcare, hospitality, or any other field, we'd love to hear from you. Your mentorship could make a significant impact on a student's career path. If you're interested in hosting a student intern or would like more information, please contact Clara Mitchell at cemitchell@washoeschools.net
