

Robin Blunden  
Teacher

Welcome Wildcats! A little bit about me—I grew up in a variety of places, including Utah, Ohio, Texas, and finally landed here in Reno. I went to Reno High School and got my teaching degree at the University of Nevada, Reno. I did my student teaching here at Westergard in first grade and fell in love with this community. So, when I was offered a kindergarten teaching position later that fall in 2015, I could not have been happier!

I taught kindergarten for four amazing years and have absolutely loved teaching third grade ever since. Teaching is my passion, and I could not imagine doing anything other than helping to inspire—and being constantly inspired by—young learners.

In my spare time, I am most often found camping, fishing, sitting in hot springs, riding my bike, or curled up on the couch with my husband, two kitties, and a good book/crossword/crochet project.

Please don't hesitate to reach out to me with any questions or concerns. Looking forward to all the great learning to come!
